User groups

Discover how our user-centered design benefits diverse individuals

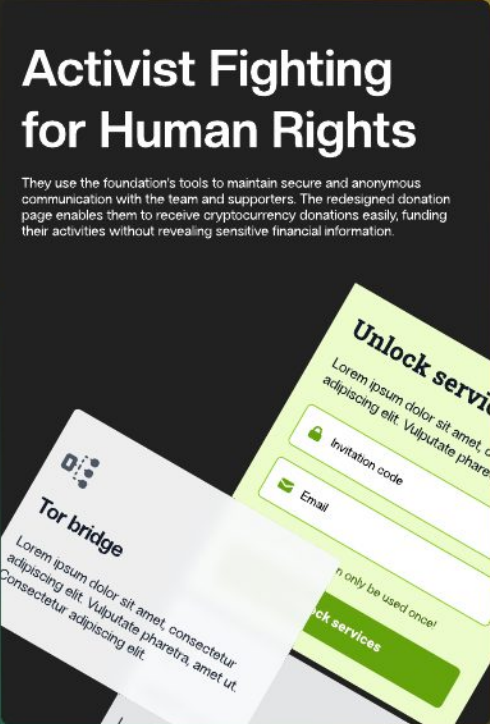

Journalist in an Oppressive Regime

Benefit from the foundation's secure Tor relays and private services, allowing to communicate safely and access global information without fear of being tracked or censored by the government.

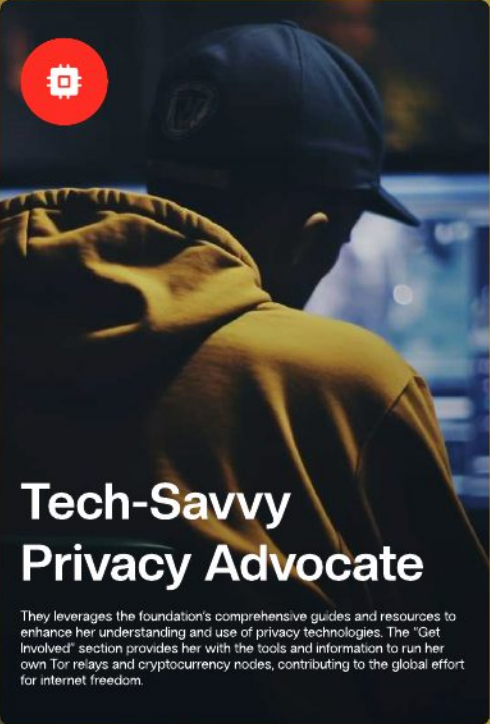

Activist Fighting for Human Rights

They use the foundation's tools to maintain secure and anonymous communication with the team and supporters. The redesigned donation page enables them to receive cryptocurrency donations easily, funding their activities without revealing sensitive financial information.

Tech-Savvy Privacy Advocate

They leverage the foundation's comprehensive guides and resources to enhance her understanding and use of privacy technologies. The "Get Involved" section provides her with the tools and information to run her own Tor relays and cryptocurrency nodes, contributing to the global effort for internet freedom.

User Empowerment

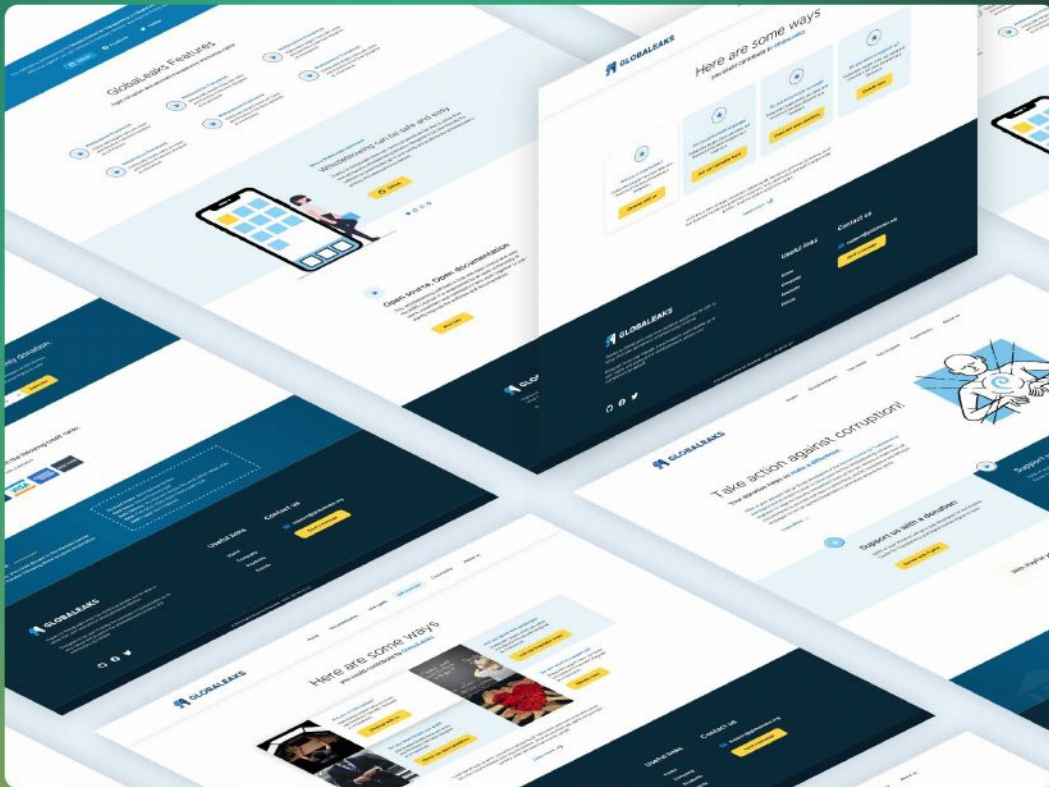

50%

Our intuitive design for the "Get Involved" page enabled a 50% increase in the number of users setting up their own Tor relays and cryptocurrency nodes.

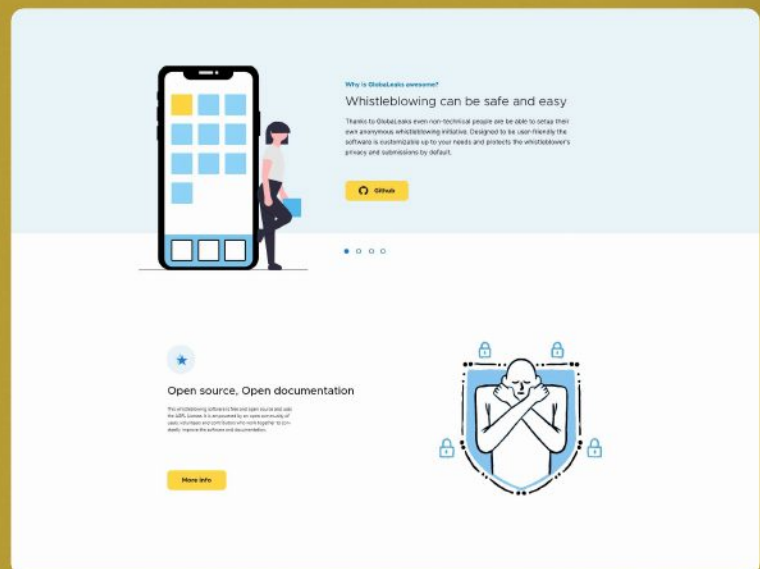

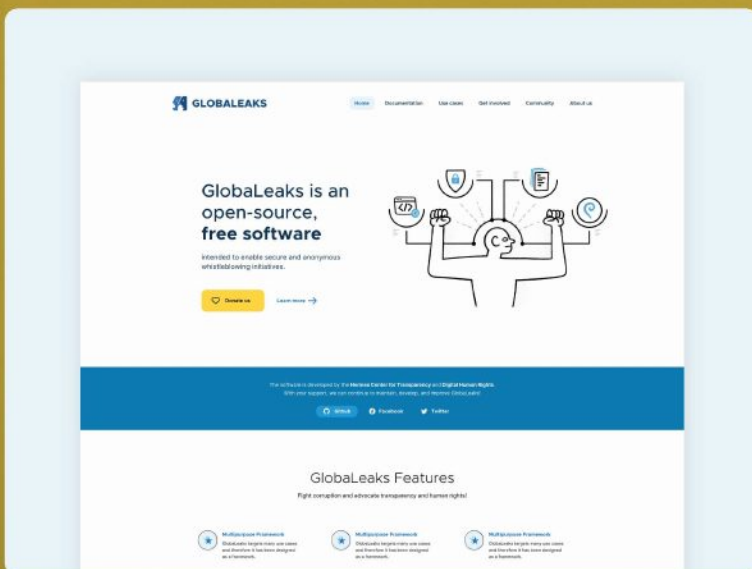

Global Reach

The new visual identity and clear communication of the foundation's mission attracted volunteers and supporters from different countries, expanding the foundation's global network.
